

Greetings from KVCH Noida !!!

Dear Sir,

We hope you, your family and friends are safe and healthy. Our well-wishes are with all of you to fight against COVID-19 pandemic. Today we stand amid uncertainty, which most of us have not witnessed in our lifetimes. No one can predict how long this will last or how deep it will impact all of us.

I firmly believe that learning will always remain an integral part of our lives; hence Students will always keep on learning. However, the pandemic has changed the way people want to learn. With restrictions on group gathering, travel and norms around social distancing, Students and Parents prefer online learning over offline learning. We see online learning/tutoring as a unique opportunity for all of us, to strongly traverse through these challenging times. Hence we encourage all of you to start tutoring online as well.

Company Profile:

KVCH was established in 1991. KVCH is committed to impart industry oriented training programs to produce world class technically sound manpower so that they can meet the industry requirements. Our technical trainers are dedicated to not only provide a customized / tailor made technical hands on training but also bringing innovative solutions with the latest technologies available.

We are Oracle WDP Partner for conducting the Project/Industrial Training Program on Live projects.

Oracle Workforce Development Program (WDP) helps educational institutions around the world prepare a new generation of IT specialists to enter the workforce with the most in-demand Oracle Skills. By enabling you to offer authorized Oracle Training Content as a part of your existing degree programs, students can learn those desirable job skills required for an increasingly competitive work environment. The program also addresses the growing shortage of skilled employees in the global technology industry by allowing you to offer Oracle authorized training.
